

## **T3 MOTION EXPANDS MIDDLE EAST PRESENCE INTO LEBANON, SYRIA AND JORDAN WITH CLEAN ENERGY, GREEN ELECTRIC VEHICLE**

### ***ECOVISION LEVANT SIGNS TWO-YEAR DISTRIBUTION AGREEMENT TO DISTRIBUTE T3 i-SERIES ELECTRIC STAND-UP VEHICLES TO LAW ENFORCEMENT AND SECURITY AGENCIES***

**Costa Mesa, CA (October 5, 2010)** - T3 Motion, Inc. has expanded its international footprint through its partnership with EcoVision Levant SAL, the newest distributor of the iconic T3 i-Series Electric Stand-up Vehicle (ESV) designed for international markets. EcoVision Levant will exclusively distribute the T3 i-Series to Lebanon, Syria, and Jordan and non-exclusively to Iraq.

The two-year exclusive distribution agreement with EcoVision Levant provides for multiple T3 i-series ESV's of which, T3 Motion, Inc. has shipped an initial fourteen units.

**T3 i-Series ESV in Doha Qatar by T3 Motion, Inc.**

“EcoVision Levant is extremely proud to partner with T3 Motion, Inc. to distribute the revolutionary T3 i-Series Electric Stand-up Vehicle to Lebanon, Syria, and Jordan,” said Ghinwa Zantout, Director of EcoVision Levant. “The Middle East represents a fantastic opportunity and growing market for clean technology. The T3i makes tremendous sense for our law enforcement and security agencies, which are tasked with increasing their presence, while at the same time, reducing their costs. The ability to keep our cities and countries, safer with the deployment of T3i's while producing zero-gas emissions is a win-win scenario for our agency and security customers throughout the region.”

“Since 2006, our long-term market strategy includes expanding our clean energy, electric vehicle footprint to the international marketplace. Through our exciting new partnership with EcoVision Levant, T3 Motion is very pleased to be expanding our reach further into the Middle East,” said Ki Nam, T3 Motion, Inc. C.E.O. “Our T3 i-Series ESVs are ideal for international public safety applications around the world. With EcoVision Levant we look forward to bringing cost-effective, zero-gas emission and clean energy vehicles to Lebanon, Syria, and Jordan.”

#### **T3 i-Series Features:**

The cutting-edge “green” technology provides an incomparable low cost of operation—running for less than 10 cents per day and never requiring any down time due to the T3 i's two re-chargeable, lightweight batteries which can be easily swapped out while in-use. This 24/7 power flexibility provides for continual deployment to support an unlimited range.

- High-performance vehicle with a zero-degree turning radius for improved maneuverability in crowds and tight spaces
- Two rechargeable and interchangeable lightweight power modules for constant 24-hour use without down time
- Capable of reaching speeds up to 15 M.P.H [25 K.P.H.] for quick response without officer or personnel fatigue
- An instinctive vehicle with easy-to-operate controls and responsive steering that allows officers and security personnel to focus on response to the situation
- A 9-inch raised platform provides a superior vantage point while still allowing for interaction with the community.
- Robust cargo capacity of 450 pounds [204 kg] (rider plus equipment) includes the ability to tow personnel and equipment/cargo trailers
- A highly effective patrol tool that enables increased patrol areas, and response times, while also focusing on cost reduction and clean energy
- Optional GPS-enabled tracking system
- Optional Motiontrak 300<sup>SM</sup> on-board video camera system [www.motiontrak.com](http://www.motiontrak.com)

### **About T3 Motion, Inc.:**

T3 Motion, Inc. (OTC BB: TMMM) revolutionized the world of personal mobility with the introduction of their flagship electric T3 Series law enforcement vehicles at the International Association of Chiefs of Police conference held in October 2006. Headquartered in Orange County, California, T3 Motion, Inc. is dedicated to raising the bar on environmental standards and law enforcement and security capabilities in personal mobility technology.

In June of this year, T3 Motion unveiled the GT3 plug-in electric consumer vehicle. The proprietary rear-wheel design of the GT3 features a patent-pending, single, wide-stance wheel with two high-performance tires sharing one wheel. The revolutionary two-tire design improves traction, stability and handling, while the low rolling resistance and rounded profile of the rear tires increase energy efficiency. The GT3 will incorporate the Apple® iPad™ into the sleek dashboard design. Due to its three-wheeled design, the GT3 is classified as a motorcycle.

T3 Motion's Motiontrak 300<sup>SM</sup> is a "black box" in-car video and data recording system ([www.motiontrak.com](http://www.motiontrak.com)). Data monitored by Motiontrak 300<sup>SM</sup> include vehicle speed, location, and g-force shocks. Built-in GPS capability is integrated with Google Maps to track precise location and provide a vehicle movement overview. Sophisticated software enables the user to see video footage from the vehicle's perspective, overhead Google Earth location display, and numeric as well as graphical data on a single screen.

For more information on T3 Motion, Inc. and the company's signature T3 Series line of electric personal mobility vehicles, the electric CT Series Micro Car, and the upcoming GT3 consumer vehicle, visit [www.t3motion.com](http://www.t3motion.com), email [sales@t3motion.com](mailto:sales@t3motion.com) or call 714-619-3600.

### **About EcoVision Levant, SAL:**

EcoVision SAL is a leading regional provider of environmentally friendly transport solutions. At EcoVision, we strive to meet the dual challenges of transportation and ecological activism. During this process, we have re-imagined every piece of conventional wisdom about the last century of transportation: from how it moves, to the fuel it uses, to how you control it. With EcoVision, groundbreaking environmentally friendly transportation solutions are now available in Lebanon and around the region. EcoVision provides world-class customer care

to its clients, both before, during, and after sale. Our customers are not simply clients; they are our partners in ensuring customer satisfaction.
