Costa Mesa, CA (January 27, 2010) - T3 Motion, Inc. (OTC BB: TMMM) proudly announces its first purchase order from Electric Motion Australia, the newest international distributor of the iconic T3 i-Series Electric Stand-up Vehicle (ESV). Electric Motion Australia has joined forces with California-based T3 Motion, Inc. to distribute the international version of the popular T3 Series electric vehicle to Australia. The T3 i-Series is designed for international markets such as the Middle East, Europe, and Australia. Electric Motion Australia has ordered its first shipment of T3 i-Series ESVs for distribution throughout the Australian continent.

“Electric Motion Australia is extremely pleased to partner with T3 Motion, Inc. to distribute the revolutionary T3 i-Series Electric Stand-up Vehicle to Australia,” said Russell Howard, Director of Electric Motion Australia. “The Australian continent represents a fantastic market for clean technology. The T3 makes tremendous sense to our law enforcement and security agencies which are tasked with increasing their presence, while at the same time reducing their costs. The ability to keep Australia safer on T3s while producing no gas emissions is a win-win scenario for our agency and security customers throughout the country.”

“Through our terrific new partnership with Electric Motion Australia, T3 Motion is very excited to be expanding our reach into Australia,” said Ki Nam, T3 Motion, Inc. C.E.O. “Our T3 i-Series ESVs are ideal for international public safety applications around the world. Through Electric Motion Australia, we look forward to bringing cost-effective, zero gas emission clean energy vehicles to Australia.”

About Electric Motion Australia:

Based in Malaga, Western Australia, Electric Motion Australia is a division of Australian Mobility Equipment (www.ausmob.com.au), a respected and successful personal mobility products distributor founded in 1990. Australian Mobility Equipment focuses on the consumer side of personal mobility with products such as wheelchairs, mobility scooters, and golf carts. Electric Motion Australia targets law enforcement, security, and utility markets with clean energy electric vehicle solutions throughout the continent of Australia. With the addition

of Electric Motion Australia, AEM has an impressive clean technology product range for both the professional and consumer markets.

About the T3 i-Series:

Reaching speeds up to 15.5 m.p.h. [25 k.p.h.] and designed with the input of law enforcement and security industry professionals, the T3 i-Series features a zero-degree turning radius and compact design—perfect for maneuvering through crowds and tight spaces. Also unique to the T3 i-Series is the most user-friendly intuitive operation of its kind, giving the rider a sense of superior stability.

The quiet environmentally-friendly zero gas emission vehicles include an integrated LED lighting system and an incomparable low cost of operation—running for less than 10 cents per day and never requiring any down time due to the T3's two re-chargeable, lightweight batteries that can be easily swapped out while in-use for continual deployment and an unlimited range.

About T3 Motion, Inc.:

T3 Motion, Inc. (OTCBB: TMMM) revolutionized the world of professional grade vehicles with the introduction of their flagship clean energy electric T3 Series law enforcement vehicles at the International Association of Chiefs of Police conference in October 2006. Headquartered in Orange County, California, T3 Motion, Inc. is dedicated to raising the bar on environmental standards as well as law enforcement and security capabilities through clean technology. For more information on T3 Motion, Inc. and the company's signature alternative energy T3 Series Electric Stand-up Vehicles (ESVs), the CT Micro Car, and the upcoming CT3 consumer vehicle, visit www.t3motion.com or call (714) 619-3600.
