T3 Motion Announces GSA Schedule Listing with GSA Advantage Online Ordering

*New Listing Enables U.S. Government Agencies and Military
to Easily Purchase T3 Motion Vehicles and Products*

Costa Mesa, CA (July 21, 2009) – T3 Motion, Inc. (www.t3motion.com), a leader in cost-effective, clean technology vehicles, has announced listing as an official U.S. General Services Administration (GSA) schedule contract supplier. The GSA listing for T3 Motion, Inc. (#GS-07F-0403V) enables U.S. government agencies and the military to order T3 Motion clean energy vehicles like the T3 Series electric stand-up vehicle (ESV). Online ordering is available through T3 Motion's GSA Advantage web page that can be found via www.gsaadvantage.gov.

GSA schedule listing offer vendors like T3 Motion and government/military customers advantages such as:

- Blanket purchase agreements
- Contractor team arrangements
- Price reductions
- New technology
- Continuous open seasons
- Evergreen contracts
- Worldwide coverage
- Purchase card acceptance
- Environmental programs
- Environmental identification
- Electronic and information technology facts (section 508)

“We are excited to finalize the T3 Motion listing on the GSA Schedule,” said Brian Buccella, T3 Motion Vice President of Sales and Marketing. “This government resource is essential for reaching our customer base. The GSA makes the ordering process as smooth and efficient as possible for government agencies. Now that T3 Motion is listed on GSA Advantage, it will make it easier, especially online, for government and military customers to order T3 Motion clean energy, cost-saving vehicles.”

The groundbreaking T3 Series ESV is a zero gas emission, clean energy vehicle that is simple, intuitive and economical to operate. The T3 features a 9-inch-raised platform for visibility and a

commanding presence, along with a zero-degree turning radius for a high level of agility. It has a payload capacity of up to 450 pounds and is fitted with adjustable headlights as well as brake, running and emergency lights. Its rugged design offers longevity and performance, even in winter weather conditions. Applications are wide ranging and include community policing, airports, security and asset protection, parking control, special events and emergency response.
