## T3 Motion Takes First Place in “LAW and ORDER” Magazine Annual Vehicle Graphics Design Contest

*Groundbreaking T3 Series ESV Voted “Best Off-Road Vehicle” of 2009*

**Costa Mesa, CA (November 12, 2009)** – T3 Motion, Inc. ([www.t3motion.com](http://www.t3motion.com)), a leader in cost-effective, clean-technology vehicles, has won first place in “LAW and ORDER” magazine’s annual Vehicle Graphics Design Contest. The contest began over 20 years ago in an attempt to pass on the very best in graphics used around the country.

A T3 Series electric standup vehicle (ESV) that is part of the Auburndale (FL) Police Department fleet won in the category of “Best Off-Road Vehicle” for its innovative approach to visual impact, beating numerous competitors for the title.

“We’re excited that one of our vehicles has received first place in such a prestigious competition,” said Brian Buccella, vice president of sales and marketing for T3 Motion. “Public safety is a top priority for T3 Motion, and we are thrilled to see how our customers are utilizing the vehicles in a manner that supports their objectives.”

This particular design and vehicle was chosen by the Auburndale Police Department in an effort to revamp the presentation of the department. The department’s design stood out among the other contestants for its unique, clutter-free layout that makes the vehicle easily identifiable, a key factor in officer and public safety.

The groundbreaking T3 Series ESV is a zero gas emission, clean energy vehicle that is simple, intuitive and economical to operate. The T3 features a 9-inch-raised platform for visibility and a commanding presence, along with a zero-degree turning radius for a high level of agility. It has a payload capacity of up to 450 pounds and is fitted with adjustable headlights as well as brake, running and emergency lights. Its rugged design offers longevity and performance, even in winter weather conditions. Applications are wide ranging and include community policing, airports, security and asset protection, parking control, special events and emergency response.
