T3 MOTION'S "T3 SERIES" WINS 2007 INNOVATION AWARD FOR BEST VEHICLE

T3 MOTION'S PERSONAL MOBILITY VEHICLE GARNERS TOP LAW ENFORCEMENT INDUSTRY AWARD

NEW ORLEANS, LA (October 15, 2007) - T3 Motion, Inc., has won the 2007 Law Enforcement INNOVATION Award for Vehicles. The finalists and winners of the INNOVATION Awards were announced at a special evening event at the New Orleans House of Blues after the opening day of the 2007 International Association of Chiefs of Police (IACP) convention on Sunday, October 14, 2007.

The INNOVATION Awards judging panel called the T3 Series "a great product due to its stable platform. It is useful for administrative or tactical duties—anywhere the high-profile of the vehicle would be advantageous. This was one of the most innovative products we judged. With a stable platform, ease-of-use, and maneuverability, the T3 is a must for just about any agency."

T3 Series by T3 Motion, Inc.

The INNOVATION Awards, sponsored by Cygnus Law Enforcement Group, recognized outstanding companies whose products have best responded to law enforcement's market challenges by offering creative and forward-thinking ideas. The ability to anticipate how technology will change and how products must evolve to stay current is a hallmark of the best companies. The prestigious competition was broken into 16 categories judged by an esteemed panel of law enforcement professionals on the following six criteria—Innovation, Ease-of-use, Cost Effectiveness, Quality Contribution, Maintainability, and Productivity Improvements. From April 2007 through June 2007, Law Enforcement industry companies were invited to nominate their products for consideration. This year, over 260 companies were nominated for the 2007 INNOVATION Awards.

(more)

“T3 Motion is very proud to win this year’s INNOVATION Award for the Vehicle category,” said T3 Motion, Inc. Founder and C.E.O Ki Nam. “We launched the T3 Series vehicle at last year’s IACP show in Boston and the response from law enforcement has been phenomenal. To win this award is a validation of the values the T3 Series represents—innovation, quality, and stability.”

About the T3 Series:

Reaching speeds up to 25 m.p.h. and designed with the input of law enforcement and security industry professionals, the T3 Series features a zero-degree turning radius and compact design—perfect for maneuvering through crowds and tight spaces. Also unique to the T3 Series is the most user-friendly intuitive operation of its kind giving the rider a sense of superior stability.

The quiet environmentally-friendly zero gas emission vehicles include an integrated LED lighting system and an incomparable low cost of operation—running for less than 10 cents per day and never requiring any down time due to the T3’s two re-chargeable, lightweight batteries that can be easily swapped out while in-use for continual deployment and an unlimited range.

T3 Series Features:

- High-performance vehicle with a zero-degree turning radius for improved maneuverability in crowds and tight spaces
- Two rechargeable and interchangeable lightweight power modules for constant use without down time
- Capable of reaching speeds up to 25 m.p.h. for the quickest response possible without officer or personnel fatigue
- An instinctive vehicle with easy-to-operate controls and responsive steering that allow officers and security personnel to focus on response to the situation
- A 9-inch raised platform providing a superior vantage point but still allowing for interaction with the community
- Robust cargo capacity of 450 pounds (rider + equipment) includes the ability to tow personnel and equipment/cargo trailers

Additional T3 Series Features Specific to Law Enforcement and Security:

- Integrated LED lighting system
- Fully-compliant headlights, brake lights and running lights
- Audible sirens
- Lockable glove box for storage
- Optional GPS enabled tracking system

About T3 Motion:
